The purpose of this manual is to provide safe guidelines to safely resolve incidents that the Polson Fire Department will respond to. Understanding these guidelines will eliminate unnecessary stress for you and your fellow firefighters.

These guidelines will provide a cohesive foundation for the success completion of fire department operations.

Guidelines are broken into the following categories:

- 100.00 – Administration
- 200.00 – Regulation
- (OSHA – Occupational Safety and Health Administration / EPA – Environmental Protection Agency)
- 300.00 – Operational

It is the responsibility of each individual to fully understand these guidelines. If you do not understand any portion of the guideline it is your responsibility to seek clarification.
